

State Road (SR) A1A/Collins Avenue/Harding Avenue Northbound from 75 Street to Harding Avenue Southbound from Bal Harbour Shops to 94 Street Roadway Project

FIN # 419858-1-52-01
419823-1-52-01
Begins: April 2012

Project Overview:

On Monday April 9, the Florida Department of Transportation (FDOT) is scheduled to begin a roadway construction project along SR A1A/Collins Avenue/Harding Avenue within the City of Miami Beach, Town of Surfside and Bal Harbour Village. The project will extend along northbound Collins Avenue from 75 Street to Harding Avenue, and southbound along Harding Avenue from the entrance to the Bal Harbour Shops to 94 Street. This work is part of a grouping of projects under one contract that will cost an estimated \$3.6 million and last about nine months.

This Project Includes:

- Replacing sections of sidewalk, curb and gutter, and pedestrian ramps
- Constructing sections of new sidewalk
- Closing several existing driveways that are no longer in use
- Installing drainage structures on Collins Avenue at 88 Street
- Updating lighting and signalization
- Adding a bicycle lane
- Repaving and restriping the roadway
- Placing decorative pavement at crosswalks
- Updating signage and pavement markings

Traffic Flow:

To do this work safely, it will be necessary to close travel lanes at times. When needed, lane closures will be Monday through Friday from 9 a.m. to 3:30 p.m. Work may also be done along Harding Avenue from 9 p.m. to 5:30 a.m., Sunday through Thursday nights. The speed limit will be reduced during construction to 30 miles per hour (mph). Tasks will be done in stages to lessen the effects of the construction. Entrances to properties will be kept open. Access to bus stops will always be maintained.

Always Put Safety First:

For your safety and the safety of others, please use caution when driving, walking or biking within any construction zone.

Wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.

The department takes steps to reduce construction effects, but you might experience the following around the work site:

- Side street, traffic lane and sidewalk closures
- On-street parking restrictions
- Increased dust and noise
- Workers and equipment moving around the area

Helpful Tips:

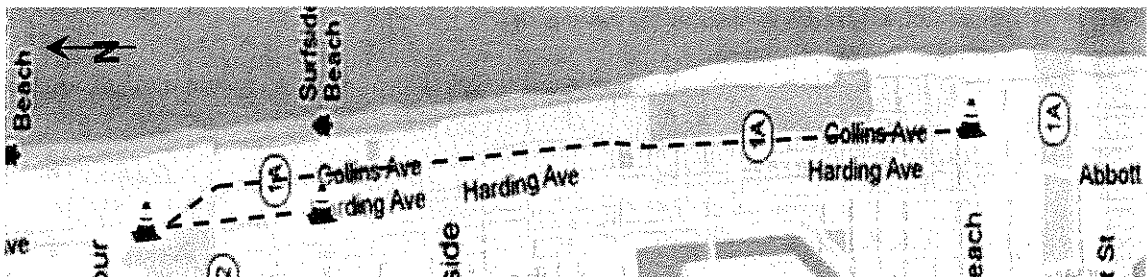

- Allow extra time to reach your destination
- Obey all posted signs and speed limits
- Watch for signs with information about upcoming work and traffic conditions

Please note that this schedule could change due to bad weather or other unexpected conditions.

For more information, please contact CCEI Project Administrator James Bennett at (305) 986-6875, or Public Information Specialist Heather Leslie at (305) 640-7462, or heather.leslie@dot.state.fl.us.
